Fitting

The Cargo trousers we will suggest if you are in-between sizes go up. If you a UK10/UK12 then go for a Medium. After a few hours of wear, they do mould to your body shape. Measure all around waist and hips, make sure the hip measurements are slightly less than on the sizing chart. There are 4 waist adjusters, 2 front and back to ensure you get no gaps at the back.

Velcro inside the knee pocket to allow for adjustment. Important to ensure knee protection sits on the knee in the right place!
